#### 2. 3.2. Call for Applications – Round 1

New Funding Opportunity to develop products or solutions tackling Antifungal Drug Resistance  
<https://cmm-failsafe.com/call-for-applications-round-1/>

#### 3.3. Grant call: scaling up locally led restoration

REDAA invites proposals for locally led, multi-locational, research-to-action for restoration programmes in sub-Saharan Africa, South Asia and Southeast Asia. In this second REDAA Grant Call, up to nine Programme Grants of between £1,000,000 and £1,500,000 (GBP) will be offered to the best proposals for substantial programmes.

#### 3.4. Our Global Health Research (GHR) – Researcher-led programmes

Our Global Health Research (GHR) – Researcher-led programmes are looking for applications to this annual funding opportunity launching in July 2024. GHR – Researcher-led funds research that aims to

improve health outcomes for the most vulnerable people in low and middle income countries (LMICs). Research must address evidence needs that are locally identified and prioritised, and must promote health equity, aligning with the aims of Sustainable Development Goal 3. Applications can span from broad, ambitious programmes of research to projects with a narrower scope.
